One-of-a-Kind, Exceptionally Renovated Villa in the Heart of Elviria

This exquisitely renovated villa, distributed over two levels, stands out for its elegant contemporary design, premium finishes, and bright open-plan layout.

Offering 3 bedrooms plus an additional multipurpose room next to the laundry area (ideal as a utility room or home office) along with 2 modern bathrooms, this home is perfectly designed for comfort and functionality.

Elegant Open-Plan Living layout

One of the villa's most striking features is its seamless, airy layout, created by an open-concept design free of interior dividing walls. Natural light flows effortlessly throughout every space.

The stylish open-plan kitchen, flooded by abundant natural light from a side window, connects with the spacious living and dining areas. Large floor-to-ceiling sliding glass doors create a smooth transition between indoor and outdoor living.
