This property is a rare find in the B Zone. For 500m2+ of refurbished property, including 1500m2 of plot, you typically have to look in the F Zone. This villa offers 5 bedrooms + an office, a wrap around landscaped garden, and is walking distance to Plaza Blanca.

The price is reflective of a location that can get some road noise in the garden, however for a large family that wants this finish and space, it is frankly a great deal!

On the ground floor there is a large modern kitchen, a large "2nd master", an office (that could double as additional bedroom), as well as a sunken living room with direct access to the garden area.

On the top floor there are 4 good sized bedrooms, 2 with en-suite including a huge master with walk-in wardrobe and a sumptuous bathroom. Vaulted ceilings, sky lights, dark wood floors, and crisp white paint give this property a Scandinavian or New England feel. It is uncluttered and ready to go.

The property has been long term rented and the owners have fixed the house with all airconditioning...
