Where the Sea and the Mountains Become Part of Your Home. Some homes offer a great location. Others impress with their views or their design. Very few bring everything together. This exceptional designer duplex penthouse is one of them.

Set in one of the most sought-after areas of San Pedro de Alcántara, just a short walk from the beach, the Boulevard, the town centre, restaurants, cafés, shops and every essential service, it offers a lifestyle that is becoming increasingly rare on the Costa del Sol: everything within easy reach, yet a home where privacy, natural light and tranquillity remain part of everyday life.

Open panoramic views across the Mediterranean, the mountains, the Boulevard and the landscaped green areas create an exceptional sense of space and are among the property's most distinctive features.

Completely redesigned to the highest standards, this elegant 178 m² duplex penthouse combines contemporary architecture with outstanding comfort. Expansive glazing, premium materials and bespoke finishes allow natural light to flow throughout the home, creating a bright, sophisticated and welcoming atmosphere….
