Renovated South-Facing Studio with Exceptional Sea Views in Aldea Alegría, Seghers

Enjoying one of the finest sea views within Aldea Alegría, this south-facing studio occupies a particularly favourable position in Estepona's sought-after Seghers neighbourhood. From the living area and private terrace, the Mediterranean stretches towards Gibraltar and the Moroccan coastline.

Natural light fills the interior, while the open-air terrace enjoys sunshine throughout the day. An awning provides shade when desired, and its sheltered position offers protection from both the Levante and Poniente winds, making it an especially pleasant place to enjoy the coastal setting.

Renovated several years ago and maintained in good condition, the studio is offered furnished and ready to move into, without the need for further refurbishment. Hot-and-cold air conditioning provides year-round comfort.

Aldea Alegría is an established, low-rise residential development surrounded by mature trees and beautifully maintained communal gardens. Unallocated open-air communal parking is available close to the property….
